

Dear colleague:

***Your patient is requesting your support in providing a referral to Markham Fertility Center as they desire assistance in their family building journey.***

***About Markham Fertility Centre:***

Markham Fertility Center specializes in providing comprehensive care and treatment for couples and individuals for all facets of their reproductive journey. We have helped thousands of families over the last 30 years and have earned a reputation as a leading and innovative fertility center, consistently delivering among the top success rates in the country for our patients.

Our clinic is equipped with state-of-the-art technology and facilities that enable us to provide a full range of fertility treatments, including **in-vitro fertilization (IVF)**, **intrauterine insemination (IUI)**, **egg freezing**, and **donor and surrogacy** services. We offer **pre-implantation genetic testing (PGT)** to help patients with genetic disorders to increase the chances of success with IVF. Uniquely, we also offer on-site **genetic counselling** as a standard of care for patients needing expanded carrier screening, preimplantation genetic testing (PGT), third-party reproductive genetics, or prenatal genetic counselling.

Infertility can be a challenging and emotional journey. That is why we offer personalized and compassionate approach to every patient who comes to us for help. We support them through all facets of care, which includes an excellent **recurrent pregnancy loss program**. All patients receive early pregnancy care, which includes first trimester screening, NIPT testing and genetic counselling, and a referral for ongoing OB care.

For more information about Markham Fertility Centre, please visit our web site at [www.markhamfertility.com](http://www.markhamfertility.com). Also, we are happy to support the learning needs of your team and/or staff with respect to assisted reproduction. If this is of interest, please contact my office at [info@markhamfertility.com](mailto:info@markhamfertility.com)

***Referrals can be faxed to 905-472-7128. Referrals can also be submitted using our online referral form. Our referral team will contact your patient within one week to confirm an appointment.***

Sincerely,

Markham Fertility Medical Team
